Refutation against Fabrications of Sex Slave

Intolerable National Disgrace to Japan

It is equivalent to a huge defamation to we Japanese that the announcement of the World Conference, a conference being held from October 4-7, 2007, at the University of California, Los Angeles ("UCLA") campus by survivors who preach falsehoods. Needless to say, “sexual slave” was not fact in the World War II and no certain evidence is existed, describes “sexual slave was fact”.

Their testimony differs from the historical fact greatly. Further, whenever it testifies, talked contents change, especially in the case of Ms. Lee Yong-Soo as if own latest talk were lie. because talk itself is fabrication. Herewith, we are going to retroact to historical truth by the historical fact.

Korean bought the resolution of “Sexual Slave”

Presses in the US announced “The Congress House of Representatives passed a resolution on July 30 urging Japan to apologize for coercing thousands of women to work as sex slaves for its World War II military.” But the resolution was brought by only 10 representatives for voice vote in the U.S. House-of-Representatives Parliament in which the 435 whole personnel originally exist. It was a mysterious method at the U.S. Congress which acknowledges the democratic model nation.

Disregarding its ambiguity of the process in propaganda, the 3 nations specially South Korea media currently carry out expansion reports which highlight only the portion of "approval" of the resolution, and devoted to the "victory" report.

However, according to Choson Ilbo, a major paper in South Korea, dated September 18, describes that Korean American electors bought certain "approval" of the resolution as a compensation of offering vote and fund to the representative group who proposed the resolution.

The article says “If the negotiations depended only on diplomatic efforts of the South Korean government, Korea probably could not be reached to “approval” of the resolution because of lobby offensive of Japan (summary).” The activities deserve the profanity to democracy, and it means that the Korean problem institutions are not based on a historical fact.
Refutation against Fabrications of Sex Slave

By the Japanese Annexation of Korea treaty concluded under both countries consent in 1910 was not “Colonial Administration” but Japan contributed to the Korean modernization investing huge national budgets. Needless to say, “sexual slave” was not fact in the process and no certain evidence is existed, describes “sexual slave was fact”.

South Korean’s hostile policy against Japan

Joong Ilbo a major newspaper in South Korea, dated September 17, describes that the South Korean government facilitates property confiscation from own country people, recognized as the pro Japanese group as the national policy. Retracting to the Japanese Annexation of Korea age; 1910-1945, the South Korean government considers the object of punishment even though the posterity and relatives of a person concerned who presumed the pro Japanese group.

The South Korean government probably wants to tell own country people "If you become intimate with Japan, you will be encountered such a punishment." “Don’t be intimate with Japan in the future, also”. The policy can be recognized to be clear declaration of intention of the South Korean government.

South Korea advances the friendship policy to North Korea in a state of war in law, but expands horrifying hostile policy to Japan, not in a state of war. The reason is because South Korea hides the immense benefit received from Japan against own country people, and to deny the past favor in the true history. The fabrication of "sexual slave", issued by the South Korean government is also the symbolic one, it was not fact in the process of Japanese Annexation of Korea, and no certain evidence is existed, describes “sexual slave was fact”.

Although South Korea and North Korea claim the history of Japanese Annexation of Korea to be "colonial administration", particular natural resources could not be found, and a serf and a thief occupied most of the nation while squeezed out of the Korean Peninsula which was the No.1 extreme poverty country of the world did not have anything, and it could not be a "colony".

The Korean Peninsula was annexed based on the Japanese Annexation of Korea treaty, and Korea became the "Japan Korea district" formally. Since it was one of district
Refutation against Fabrications of Sex Slave

in Japan, the Japanese government supplied the immense budget and rendered modernization of the Korean Peninsula. In the "Japan Korea district", the Japanese government built many infrastructures including the school exceeding 5000 schools besides various required equipment, medical facilities, and a road. The culture using a character was offered considering the Hankul alphabet as a requirement in the modern education.

The Japanese government thought and considered as important as national foundations, raised medical treatment and health environment by leaps and bounds, and contributed to extension of peninsular people's life expectancy.

The Japanese government provided infrastructure to the Korean Peninsula which remained without suffering air raids around the postwar period, built in the "Japanese Annexation of Korea" age, without asking for any compensation.

Intellectuals point out with some trial calculations that it would be 16-20 trillion yen and 20 trillion yen if it was converted into current price.

In order to deny these facts and to conceal completely, the South Korea starts nationals' cleanup and carries out the fabrication of the "sexual slave" what is not a fact, and tries to demand Japan compensation. These activities mean the rash act of the South Korea government which also denies conclusion of the treaty.

Needless to say if demand for compensation is taken into true considerations, the right dares be in Japan.

With the "San Francisco Peace Treaty" which concluded once "postwar compensation" in 1951, Japan connected peace to 48 nations among 55 nations. At the time, many countries which had ownership of compensatory right abandoned the claim.

On the other hand, the Japanese government concluded individual bilateral agreement and promised to perform semi-compensation to damages, given by Japan in the war, separately from the "San Francisco Peace Treaty".

Photograph (left): South Korean who insults the photograph of Japan's Foreign Minister. This is also one of the insult and the pain given by South Koreans to Japan. No Japanese takes such activities.

South Korean obligation to compensate own people
As for both compensation and semi-compensation defined by each agreement with individual country, the Japanese government has satisfied all completely in April, 1977.

In the process, Japan provided 478 billion yen as total for the compensation to Philippines, Vietnam, Burma (Myanmar in current), Indonesia, and so on. In 1965, the "Japan-ROK Basic Relations Treaty" was concluded between Japan and South Korea.

At the time, agreement and confirmation were established that "The problem on the right of claim existed between people of the both countries, was solved completely and the Finally" by both governments. Therefore, in Japan, no duty is existed neither Japan to compensate further, nor duty to receive demand for compensation.

Based on "Japan-ROK Basic Relations Treaty", Japanese government also abandoned huge properties which Japan owned in South Korea, that is, Japan provided all of them for South Korea.

From the courtesy of the Japanese government to South Korea, Japan provided 300 million dollars (at that time, about 108 billion yen) gratuitously and provided 200 million dollars (at that time, about 72 billion yen) for counter value. And 300 million dollars (at that time about 108 billion yen) were also delivered with the private sector loan to South Korea from Japan.

Again, the announced "The Congress House of Representatives passed a resolution on July 30 urging Japan to apologize for coercing thousands of women to work as sex slaves for its World War II military." But the resolution was brought by only 10 representatives for voice vote in the U.S. House-of-Representatives Parliament in which the 435 whole personnel originally exist.

It was a mysterious method at the U.S. Congress which acknowledges the democratic model nation. Disregarding its ambiguity of the process in propaganda, the 3 nations specially South Korea media currently carry out expansion reports which highlight only the portion of "approval" of the resolution, and devoted to the "victory" report.

But "Sex Slave" was not existed. Base on the resolution, although Korea repeats it in a million times as if it were fact, fabrication cannot be become "Fact". Moreover, Korea people must re-recognize the nation whom charged compensation is South Korea in law.
